

## Centennial Trail Improvement Project Trail Update!

### Great news!

Access to the Drifter trail from Highway 3B will remain open!

Thanks to the swift efforts of the KCTS, a new diversion has been constructed at the north end of the trail, bypassing the section that typically connects to Centennial.

Please note that the southbound portion of the trail remains closed.

This update was made with trail user safety as the top priority.

A big thank you to the KCTS team for their quick work!
